

Installation Guide for the E2E Ecommerce Playwright Project

Project Repository: [e2e-ecommerce-playwright-project](https://github.com/foysalRabbi/e2e-ecommerce-playwright-project)
[GitHub Repository](#)

This project is based on the Playwright E2E testing framework using Node.js and TypeScript.
([GitHub](#))

Prerequisites

Before installing the project, make sure the following tools are installed on your system:

- Node.js (v18 or later recommended)
- npm (comes with Node.js)
- Git

Check Installed Versions

Run these commands in terminal:

```
node -v npm -v  
git --version
```

Step 1: Clone the Repository

Open terminal or command prompt and run: `git clone`
`https://github.com/foysalRabbi/e2e-ecommerce-playwright-project.git`

Move into the project folder:

```
cd e2e-ecommerce-playwright-project
```

Step 2: Install Dependencies

Install all required npm packages:

```
npm install
```

This command installs:

- Playwright
- TypeScript
- Test dependencies
- Utility libraries

Step 3: Install Playwright Browsers

Install supported browsers for Playwright:

```
npx playwright install
```

For Linux systems, use: `npx playwright install --with-deps`

Step 4: Verify Installation

Check Playwright version: `npx playwright --version`

Step 5: Open the Project in VS Code (Optional)

If using Visual Studio Code: `code`

Install recommended extension:

[Playwright Test for VS Code](#)

Step 6: Run the Test Suite

Run all tests:

```
npx playwright test
```

Run tests in headed mode:

```
npx playwright test --headed
```

Run a specific test file:

```
npx playwright test tests/example.spec.ts
```

Step 7: View HTML Report

After test execution:

```
npx playwright show-report
```

Common Useful Commands

Run tests in UI mode

```
npx playwright test --ui
```

Debug tests

```
npx playwright test --debug
```

Generate test code automatically

```
npx playwright codegen
```

Troubleshooting

Node Modules Error

If dependencies fail:

```
rm -rf node_modules package-lock.json
npm install
Windows:
rmdir /s node_modules del
package-lock.json npm
install
```

Browser Installation Failed

Try:

```
npx playwright install chromium
```

Recommended Tools

- [Node.js Official Website](#)
- [Playwright Documentation](#)
- [Visual Studio Code](#)

Example Workflow

```
git clone https://github.com/foysalRabbi/e2e-e-commerce-playwright-project.git
cd e2e-e-commerce-playwright-project
npm install
npx playwright install
npx playwright test
```

```
